

CAMP TWIN LAKES – WILL-A-WAY

- Camp Twin Lakes- Will-A-Way features 19 camper cabins, which each sleep 14 campers. The cabins' unique octagonal design provides the opportunity to partition smaller parts of the cabin for additional privacy. Each group of 4 cabins, or as we call it at camp, a village, has three of Will-A-Way's distinctive, hallmark teepee structures that have been converted to program spaces that help campers learn about the elements of earth, wind, fire, and water. The Dining Hall also serves as a multipurpose area for dancing and rainy day programs.
- Surrounded by water, Camp Twin Lakes-Will-A-Way sits on 100 acres inside of Ft. Yargo State Park in Winder, GA.
- The KaBOOM! Playground is fully accessible so that all of our campers enjoy it.
- Will-A-Way's medical lodge, also known as the "health hut," for Camp Partners' medical staff help keep campers healthy and safe as they enjoy camp activities. In addition to the fully stocked health hut, we have a pharmacy and treatment area inside the dining hall to help with the facilitation of meal time meds.
- A state-of-the-art swimming pool is the cornerstone of this location and features a ramp for easy entrance, aquatic wheelchairs, and a swirling waterslide. The nearby pool pavilion also offers outdoor space for large group activities such as dances. Just beyond the pool pavilion on the beachfront are beach volleyball and Bocce ball.
- Campers also enjoy a newly renovated arts & crafts building for everything from tie-dye to ceramics.
- Will-A-Way's beachfront is home to several lake activities including fishing, kayaking, and beach volleyball. Thanks to volunteers from BB&T, CTL-Will-A-Way also now has gold panning.
- Down the beachfront from the main campsite is a primitive campsite. Many of our Camp Partners use this space to teach older campers outdoor survival skills while training them for future leadership positions.
- The Amphitheater features a beautiful backdrop of the lake and is where opening ceremonies and other productions such as talent shows or performances by musical guests take place. The Amphitheater is also home to the Will-A-Way Rock Garden which features rocks painted by campers and Camp Partners and serves as the place where everyone can leave their legacy at camp!
- At archery, campers can shoot a bull's-eye with the help of specially trained staff and adaptive equipment.
- Camp Twin Lakes' staff guides campers through outdoor adventure activities including the high ropes course, a team challenge course, a zip line on a hydraulic lift, and a climbing tower.
- Camp Twin Lakes activities at Will-A-Way also include sports, nature, and more!
- At the new covered riding ring, campers get to participate in equestrian therapy and stay cool as they ride on summer days.
- At Will-A-Way's farm, campers enjoy gardening in wheelchair-accessible raised plant beds.
