With your help, we provide pivotal experiences that improve campers’ lives.

Powering transformative camp experiences for children with serious illnesses, disabilities, and other life challenges

Thanks to the generosity of our donors, Camp Twin Lakes is able to provide the opportunity to be part of transformative summer camp adventures for kids who are not able to attend typical camp. We foster an environment of creative freedom, fun, and discovery that teaches our campers to overcome misconceptions about what they think they can accomplish. They return home with a new sense of confidence and independence.
One of my favorite memories from camp this summer is of a rousing game of Thunderball - a fast-paced game of aiming and dodging a ball in a tight wooden court. It was the playful taunts, cheerful encouragements, and grunts of determination that lured me to the game. I observed happiness, humanity and the simplicity of childhood; not the physical limitations which are too often in focus in a camper’s daily life the remaining weeks of the year.

At Camp Twin Lakes, children are able to simply be: to be daring, to be shy, to be silly, to be confident, to be themselves. It’s an experience where character is at the forefront as opposed to differences.

It’s one magical week and it’s also a critical component of personal development and independence. To accept one’s true self and others is a vital part of growing up, and I am proud to say you continue to make this possible. On behalf of the Camp Twin Lakes Board of Directors, thank you for providing these pivotal experiences for our campers.

Jill Morrisey,
Camp Twin Lakes CEO

Summer camp is a rite of passage. Nights away from home build confidence and independence, lifelong friendships are developed among cabin mates, and there are countless opportunities to try new things and learn new skills in a safe, supportive environment.

This year, we wrapped up our 26th summer of providing transformative camp experiences for children and adults facing serious illnesses, disabilities, and life challenges. Your generosity and support make a big impact on the people we serve, both during their camp experience and in their day-to-day lives when they return home.

Looking ahead, we will be more intentional than ever in measuring the impact of Camp on our campers, their families and our volunteers so that we can continue to implement programs that ensure progressive change. We are excited to grow and create the capacity for more children to experience Camp while enhancing our leadership development program to deepen impacts on youth as they prepare for adulthood. Thank you for your commitment to our campers’ journeys!

Camp Twin Lakes CEO

You fund camp programs that are intentionally designed to impact children and young adults far beyond their time spent at Camp. Through these programs, they learn how to overcome their unique obstacles and develop new skills to more independently manage their everyday challenges and actively participate in their own treatment.

Over 96% of campers reported a higher sense of independence and responsibility after attending Camp

“This’s what is so great about Camp: he’s there with everyone who is in a situation like his. They all cheer each other on and support each other, which I think is truly the main focus of Camp. Camp is not just the fun stuff, but it’s also about feeling comfortable with his disease, knowing how to talk about it and being around other people with it.”
—Emily Welsch, Ethan’s mom

Ethan Welsch
CAMP WANNAKLOT: for kids with hemophilia

This summer at camp, 8-year-old Ethan joined the ranks of the “Mighty Stickers,” a group of campers capable of treating themselves and who demonstrate full understanding of their diagnosis and healthcare plan.

For five years, Ethan’s parents gave him weekly infusions for hemophilia. Last summer at camp, Ethan was inspired by seeing kids just like him mixing their own factor and performing their own infusions, so he spent the next several months practicing and learning to become more independent. Ethan was proud to go to Camp this summer and show his friends his new skills!

Over 96% of campers reported a higher sense of independence and responsibility after attending Camp

Ethan and his fellow Mighty Stickers perform their treatment at the medical lodge under the supervision of medical staff trained to meet the unique needs of children diagnosed with hemophilia. Then, they get back to typical camp activities! (below)
Younger campers often describe themselves as having two different personas: their “camp self” and their “home self.” At home, they say they are shy and without friends. At Camp, the kids describe themselves as confident, eager to help others, and having lots of friends. They are the stars of the talent show and aspiring heroes.

Jonathon Walker
CAMP KRAZY LEGS: for kids with Spina Bifida

“I don’t have friends at home, I have Spina Bifida.”
But at Camp, he is the self-appointed bouncer at the dance (complete with a walkie-talkie and black suit), has an entire cabin full of best friends, and is a member of the camp fraternity.

On the other hand...
as campers grow older and more confident, they become able to be their “camp self” at home, too. These young adults then return year after year to help the younger campers return home with confidence.

Tyler Kelly
FORMER CAMP BRAVEHEART CAMPER » CAMP COUNSELOR » COLLEGE STUDENT

“You are at Camp! Because you have been through everything, you can do anything!” - Tyler encouraging his campers

Before coming to Camp, Tyler described himself as shy and lacking confidence. He feared others seeing his scars, preventing him from participating in many typical activities. After finding his voice and his true personality at Camp, he was able to return home and be the same confident, outgoing kid he was at Camp.

88% of campers reported that their friendship skills improved because of Camp
Max Einig
CAMPER » LEADER IN TRAINING » CAMP COUNSELOR & MENTOR

“Camp Twin Lakes really helps kids realize that they’re not alone in this world. A little help and support from others who experience the same things they experience can do wonders for their self-esteem, self-worth, and outlook on life.”

As a 19-year-old living with Tourette syndrome, Max hopes to be the person that he needed when he was younger and to make a difference for kids who are also living with Tourette’s. This summer, Max gave kids just like him an experience they’ll always cherish in an environment where they are free to be themselves.

Mikaela “KB” Beck
CAMPER » LEADER IN TRAINING » CAMP COUNSELOR & ASPIRING PEDIATRIC NURSE

“Camp can change lives in the most positive of ways. My 12 years at Camp allowed me to get a different perspective and grow into the vibrant, spontaneous, compassionate person I am today. The opportunity to return as a counselor allows me to reinvest the power of my experiences as a former camper to new campers.”

For KB, Camp Twin Lakes is how she found confidence and irreplaceable friendships in a fun and safe environment that felt like home. Often, new-found confidence and friendships are accomplished through the opportunity to help others.

At Camp, kids are given the opportunity to help and support their peers— not just accept help from others. Many campers are used to being the only one with special needs and having adults to help care for those needs. At Camp, each child recognizes their fellow campers have similar needs, and they all work together to fulfill them.
The Fellowship Program

Our Fellowship Program engages recent college graduates and program staff members pursuing careers in camping, education, recreation therapy, and other service-oriented professions. CTL Fellows live and work at Camp and receive free housing, meals, and a small stipend as they embark on a year-long professional development journey to learn about camp management, nonprofit management, program management, and staff supervision in a supportive and intentional environment.

Our Fellowship program intentionally builds personal and occupational skills for these aspiring professionals. We want our Fellows to be involved community members, agents for positive change, and advocates for those who can’t advocate for themselves. Fellows are the frontline staff, and the energy and work ethic they carry reverberates throughout the staff.

Since our Fellowship program began, 34 Fellows have completed the program and we have hired seven Fellows to be on our full-time staff. Our partner organizations have also hired several, allowing us to continue working with them. Our other alumni Fellows are now in fields such as elementary and secondary education, mental health counseling, child life in various children’s hospitals, overseas missions, nursing, medicine, law, business, and, of course, camp.

Nathaniel Patton

Former Summer Staff >> Fellow
Pursuing Masters Degree in Child Life

"Camp has given me experience with all types of children and families, as well as illnesses and diagnoses. It’s incredible to see the little ones who go to away camp for the first time. At Camp, they get to see older kids, who are dealing with the same challenges, take care of themselves. The little ones learn quickly from the older campers and become independent."

As a Child Life Specialist, Nathaniel hopes to use the skills learned at Camp to help pediatric patients cope with their diagnosis and being in the hospital. Nathaniel will provide kids with age-appropriate tools necessary to succeed with a chronic illness or life challenge.
Funded by more than 200 donors who attended last year’s 25th Anniversary Gala, the lakefront Creative Connections Center will serve more than 4,000 campers annually as an arts and crafts center, a ceramics and woodworking studio, and an outdoor teaching kitchen.

For many of our campers facing overwhelming daily challenges, art offers an outlet to safely and creatively express their fears and frustrations.

**THE ZEN DEN**

The Zen Den, created by our friends at Sunshine on a Ranney Day, is a quiet room inside the Creative Connections Center where campers can rest, relax, read, or play games. It serves as a therapeutic sensory space for campers needing a calm environment or a break from the stimulating activities, and is a popular hangout spot for our teen campers.

**OUTDOOR TEACHING KITCHEN**

The outdoor teaching kitchen is an incredible tool for teaching campers about sustainability and the positive impact of healthy food choices as they pertain to their specific diagnoses. Through this curriculum, campers gain an understanding that eating a diet rich in fresh fruits and vegetables and regular physical activity are essential to leading a healthier lifestyle.
Camp-To-Go brings some of the same engaging, therapeutic activities enjoyed at our rural campsites directly to children who are too medically fragile to leave the hospital.

Camp-To-Go's core value is to develop a community for patients and families, reducing the feeling of isolation associated with hospitalization.

This year, Delta Air Lines has committed to making all of this possible as Camp-To-Go’s presenting sponsor.

We’re now serving some of the most medically-fragile children, including those dependent on tracheostomies and ventilators. These campers benefit greatly from our adaptive equipment like the zero-entry pool. For the first time, they were able to safely enjoy playing in the pool.

We partner with several organizations to meet the unique needs of military families. Therapists are on site to support service members and their families dealing with PTSD, depression, and anxiety.

This year, we hosted seven family weekend retreats and a week-long summer camp for 175 kids of active or fallen service members.

This spring, we welcomed our first two adult residents, Emily and Hank, to the Eric M. Robbins Group Home.

The goal of the Group Home is to allow residents to live as independently as possible, work, and play in an inclusive, year-round camp community.
Thanks to your generosity, we cultivate camper curiosity with hands-on learning experiences through our environmental education and farm programming.

After visiting the farm, 100% of campers confirmed trying at least one new food, learning something new, and doing something they have never done:

- Through composting and tending our Sunhemp maze, campers learn about the science of soil, water, plants, meteorology, ecology, genetics, and environmental stewardship.
- By using drones for surveying, campers develop skills in computer and internet science, GPS logistics, and real time diagnostics.
- Campers engage their engineering skills for operating our solar well and plow; their math minds for calculating and projecting crop harvests and analyzing ingredients for recipe creation; their artistic side for composing photographs, ordering recipe ingredients, and thinking through the design of recipes and crafts made with farm elements.
This summer, Camp Twin Lakes welcomed our very first Community Therapy Dog, Bijou! Thanks to Chip’s Nation and Canine Assistants, Bijou spent all summer at camp visiting each location so that every camper could get to know her.

Interaction with therapy dogs can:
- reduce anxiety and depression
- lower blood pressure
- assist with pain management
- promote greater self-confidence
- encourage communication
- increase socialization

Bijou’s main jobs are to provide comfort, affection, and be a friend to all campers, inspire them to try new activities, comfort campers who may be homesick, and stay by campers’ sides to help them cope while they receive medical treatments.

Thank you for your dedication to keeping camp magical!

From event planning and coordination, to working on projects at our campsites and serving as counselors, volunteers provide hundreds of hours of service to Camp Twin Lakes each year. We offer a variety of volunteer opportunities for groups and individuals with a range of interests and abilities.

TACO MAC SPOTLIGHT:
This summer, Taco Mac visited camp to set the tables and serve lunch to our Twitch and Shout Campers.

“Getting to see the children’s bright smiles as they came in to the dining hall from their morning activities was not only a thrill but an affirmation of why we work so hard to support Camp Twin Lakes. Without this incredible organization, these children wouldn’t be able to go to camp.” Harold Martin, Taco Mac CEO

DELTA AIR LINES SPOTLIGHT:
This spring, Delta helped us prepare for campers by removing old mattresses in our medical lodge and installing new super comfy ones! They also helped us hand weed our spring greens at the farm!

Each summer we need more male cabin counselors to volunteer to spend the entire week with our campers. Our male counselors play a vital role in our campers’ journeys.

for fiscal year April 1, 2017 - March 31, 2018

GuideStar reports on 2.5 million nonprofits and awarded Camp Twin Lakes with the Platinum Star, their highest level of recognition, for transparency in our finances and impact.

Camp Twin Lakes is also an accredited member of the Better Business Bureau's Wise Giving Alliance.

*Camp Twin Lakes partners with nearly 60 nonprofit organizations to serve 10,000 campers each year. Camp Twin Lakes subsidizes $550 of the direct costs of each camper to attend Camp through our donor-funded Camper Scholarship Program. The partnering organizations fund the remaining camp costs.
Our Camp Counselor Circle members are committed to supporting our mission and the campers we serve with a leadership-level annual gift of $2,500 or more. These generous gifts provide the foundation for the growth of our campers by funding our Camper Scholarship Program. This program ensures that all campers receive the benefits of Camp at little to no cost.

### A Parent's Perspective

**NANCY PEREZ -- MOTHER OF CAMP YOUBYOU CAMPER**

“Camp friendships are different because you build a community instantly. It takes the worry of whether our kids are okay off the table so that as parents, we can be free to learn from each other, relax, breathe for a second, and take in the resources. Because of Camp, we feel less isolated and less embarrassed. This is where you don’t have to say ‘I’m sorry.’ Camp has taken the taboo off of autism for our family.”

What the Experts Are Saying

ANSLEY DANIEL << CAMP NURSE << PEDIATRIC TRANSPLANT NURSE AT CHILDREN'S HEALTHCARE OF ATLANTA

“I never thought camp would be possible for kids with transplants. These kids are sicker than sick. They’re waiting for organs, some don’t even have the energy to walk down the hall, and are often stuck in bed or in a wheelchair. When they get to camp, they come out of their shell and get to do the same activities as any other child. Some campers have had transplants and some are on dialysis, so their treatment takes place at Camp. We're blessed to have an army of Camp doctors and nurses who are capable of taking care of these kids.
